

Welcome to the Art History and History sections of the Moraira/Teulada u3a website.

Lectures in both of these subjects are presented in the Lecture Theatre of Espai la Senieta in central Moraira on the second and last Monday of each month both starting at 10.30 a.m.

Art History is scheduled for the second Monday in the month and General History on the last Monday. The lectures last for about one and a half hours with, usually, a short break half way through.

The programme details and speakers names are shown on the graphic panels included in this website section. We endeavour to display these details at least two months in advance.

Details also appear in the monthly newsletter and a brief reminder is sent to all Moraira members via a personal e-mail each month.

You do not have to register as a specific group member, any u3a member of any of the local u3a associations may simply attend as and when they wish.

There is no charge and a good attendance is therefore necessary to enable us to retain this valuable concession from the Town Hall.
