

**Email received from Councillor Sylvia Tatnall  
3<sup>rd</sup> March 2010:**

I have received a letter from the Centre of Public Health in Denia. This is to inform that soon those who are on the medical system here (with the S.I.P. card) and are between the age of 50-69 should be receiving a letter from Denia to participate in the campaign for the prevention of cancer of the colon.

This is the 2nd time that it has been done for this Municipality , like the prevention of breast cancer it will in future be normally every two years. The instructions will be sent to everyone but do not hesitate to contact me if they are not clear to you. Unfortunately only those within this age group will receive the letter.

As soon as I know that they are being sent I will send to you all another e-mail .If you are within this age group and do not receive it please let me know. if this is so we would have to send a copy of the S.I.P. card and also the certificate to show that you are on the Padron.

Once again as you can see it is very important to be on the Padron.

Regards

Sylvia
